HARKCON AWARDED MOBIS CONTRACT VEHICLE BY GSA

MCLEAN, Va. – Harkcon announced today its award of a Federal Supply Schedule contract by the General Services Administration (GSA). This contract places Harkcon on the Mission Oriented Business Integrated Services (MOBIS) schedule, designed to provide government agencies with expert advice in all areas of management and management improvement.

As a member of the MOBIS schedule, Harkcon can now compete for government contracts in the field of mission oriented business functions, such as management or strategy consulting, program planning, customized training and many other services. The MOBIS contract grants a five-year base period with three option years.

“We are thrilled with the opportunity to provide top-notch business consulting services to the federal government through this new contract vehicle,” said Harkcon President and CEO Kevin Harkins, Ph.D. “We are proud to be a part of the GSA team and anticipate continued success for our business and our clients.”

Founded in 2005 and headquartered in McLean, Va., Harkcon is a human performance consulting firm offering a wide range of analysis-based management solutions for government and private sector clients.
